SUMMARY

Passionate frontend developer skilled in HTML, CSS, and JavaScript with a focus on clean, responsive UI development. Self-taught and certification-backed, I've built real-world projects that reflect strong technical ability and creativity. Now seeking **remote roles** or **internships** to grow rapidly and contribute meaningfully to a team.

PROJECTS

Futurixx Mall

Custom e-commerce UI | HTML, CSS, JS

• Enhanced a base template with original UI/UX ideas

• Designed AI-enhanced product visuals for a modern, responsive layout

City Weather App

Live weather dashboard | HTML, CSS, JS

• Integrated real-time API with the Fetch method

• Created a clean interface with icon support and search functionality

Rock, Paper, Scissors Game

JS Game | HTML, CSS, JS

• Interactive difficulty levels and dark mode toggle

• Score tracking logic and UX focus with sleek visuals

EDUCATION

IBM Frontend Development – IBM SkillsBuild

Built a solid foundation in core web technologies, including HTML, CSS, and JavaScript. Gained practical skills in structuring web pages, styling with responsive design, and adding interactivity through DOM manipulation. Learned essential development tools and best practices to create accessible and user-friendly websites.

Responsive Web Design & JavaScript DSA – freeCodeCamp

Learnt core JavaScript, algorithms, and data structures through rigorous coding challenges and real-world problem solving. Also built advanced, responsive websites using HTML and CSS, mastering layouts, flexbox, grid, and accessibility through intensive projects.

Git & GitHub – Udemy, Le Wagon, Simplilearn

Learnt version control and collaboration workflows using Git and GitHub, mastering key concepts like branching, merging, pull requests, conflict resolution, and working with remote repositories through hands-on projects.

Frontend Dev (HTML/CSS/JS) – Simplilearn

This covers essential front-end development tools and technologies, including Git, GitHub, HTML, CSS, and JavaScript.

Microsoft Copilot & Prompt Engineering – Microsoft Learn

Learned how to use Microsoft Copilot effectively to enhance productivity, generate better results, and work more efficiently across professional tasks. I also engineered highly optimized code by leveraging AI-powered tools in Visual Studio Code, mastering advanced prompt strategies for maximum coding efficiency and precision.

Professional & Interpersonal Skills - hp Life

Completed 20 HP Life certifications covering **professional communication, team collaboration, and digital business essentials**. Learned to design user-focused websites using **design thinking, customer insights, and effective presentations**. Gained skills in **Agile project management**, digital branding, and value-driven entrepreneurship. Built awareness in **cybersecurity, AI, and data analytics**, and developed a strong **growth mindset** rooted in discipline, time management, and continuous improvement, empowering me to deliver real value as a frontend developer.

SKILLS

Frontend Development
HTML5, CSS3, JavaScript (ES6+), Responsive Web Design, CSS Animations, DOM Manipulation, Object-Oriented Programming (OOP), API Integration (Fetch, Catch), Accessibility (a11y), Git & GitHub, Agile Workflow (Scrum, Kanban, SDLC), AI-Powered Coding (GitHub Copilot, Prompt Engineering)

Design & UX
Design Systems, Wireframing, Prototyping, Color Theory, Typography, Graphic Design (CorelDraw, Photoshop, Canva), User-Centered Design, UX Writing, Target Audience Analysis, Unique Value Proposition (UVP) Crafting

Soft Skills & Professional Development
Problem Solving, Effective Communication, Team Collaboration, Adaptability, Leadership, Time Management, Emotional Intelligence, Business Communication & Email Etiquette, Presentation Skills, Customer-Centric Thinking, Growth Mindset, Self-Discipline, Cybersecurity Awareness, Digital Collaboration Tools
